3D PRINTED Titanium Partial Framework

ADVANTAGES of 3D Printed Ti Partial Framework

LIGHTER & THINNER

Lighter and higher elasticity than the traditional metal frameworks.

INCREASED COMFORT

High-quality plastic deformation ability, more comfortable to wear.

HIGH AESTHETICS

High surface brightness, anti-dental plaque, anti-staining, strong self-cleaning.

HEALTHIER

High biocompatibility, non-toxic and non-allergic for long-term wear.

DURABLE

No defects such as bubbles, high elasticity of the snap ring, consistently durable.
